

**INVESTMENT OBJECTIVES
 & STRATEGIES**

The Ocean Park California Municipal Bond Program seeks to produce satisfying long-term returns while limiting downside risk. The interest income from California municipal bonds is tax-free at the federal and state level, providing a valuable benefit for California clients in relatively high-income tax brackets. Returns are created from interest income as well as increases in bond prices. The Program diversifies a client's account among at least four (often up to ten) municipal bond mutual funds. Each holding is monitored daily and during declines, a proprietary stop-loss discipline is implemented with the goal of limiting drawdowns. The Program will be fully invested when there are many Buy signals and will, at times, be fully in cash when the universe of California municipal bond mutual funds are showing Sell signals.

* Indicates a partial year, from June 30, 2014 through December 31, 2014.

† The benchmark for the Ocean Park California Municipal Bond Program is the Bloomberg Barclays Municipal Bond Index, which is an unmanaged index that is considered representative of the broad market for investment grade, tax-exempt bonds with a maturity of at least one year. Investors cannot directly invest in an index and unmanaged index returns do not reflect any fees, expenses or sales charges.

The inception date of the Ocean Park California Municipal Bond Program is June 30, 2014.

‡ The performance shown reflects a fee rate of 2.40% per year. Fees are less for households with more than \$500,000 at Ocean Park Asset Management.

From 7/1/2014 to 12/31/2015, the source of the nominal performance data shown was from an SMA marker account invested in the CA Municipal Bond Program but managed by an affiliate of Ocean Park. From 1/1/2016, the source of the data shown was from an SMA marker account invested in the CA Municipal Bond Program and managed by Ocean Park.

For purposes of illustration, the hypothetical Taxable-Equivalent Returns shown in this and any accompanying graphs assumes that the current highest federal and California state income tax rate of 50.93% was in effect for the entire period shown. On that basis, the table shows the returns that an investor in the highest federal and California state tax bracket would have needed to achieve in order to net the same returns after federal and California state taxes. Beginning in 2018, the highest federal income tax rate is expected to be 40.80%. **Contact your tax advisor to determine the specific impact of an investment in our California Municipal Bond Program on your individual tax situation.**
