

INVESTMENT OBJECTIVES & STRATEGY

The Ocean Park Strategic Income Strategy seeks to achieve satisfactory Total Return – income and capital appreciation – over each market cycle, while limiting drawdowns, an approach that has in recent years been called absolute return. It is a globally diversified strategy, with asset allocation tactically adjusted to reflect changes in the economic and market cycles. The Strategy invests in a diverse selection of mutual funds to access a wide range of income-oriented asset classes. A stop is placed under each holding that rises as its price rises, and the holding is sold when price declines below the stop to limit drawdowns even during periods of severe market declines. There are no set proportions or limits for the Strategy's allocations.

For the growth of \$100,000 and quarterly performance shown, from 1/1/2012 to 3/31/2013, the source of the performance data shown was from a marker SMA account invested in the same way as the Strategic Income Strategy but managed by an affiliate of Ocean Park. From 4/1/2013 to 12/31/2017, the source of the performance data shown was from an SMA marker account invested in the same way as the Strategic Strategy and managed by Ocean Park. Effective 1/1/2018, the source of the performance data shown is from a composite of SMA accounts invested in the same way as the Strategic Income Strategy and managed by Ocean Park.

The SMA marker accounts and the composite have been allocated up to 50% to a mutual fund managed by an affiliate of Ocean Park. The Strategic Income Strategy may also be allocated up to 50% to a mutual fund managed by an affiliate of Ocean Park.

The performance shown herein represents past performance. Past performance does not guarantee future results.
