

INVESTMENT OBJECTIVES & STRATEGIES

The Ocean Park High Yield Corporate Bond Program seeks to produce satisfying long-term returns while limiting downside risk. Returns are created from interest income as well as increases in bond prices. The Program diversifies a client's account among at least four (often up to ten) high yield corporate bond mutual funds that are expected to generate returns superior to a simple high yield corporate bond benchmark. Each holding is monitored daily and during declines, a proprietary stop-loss discipline is implemented with the goal of limiting drawdowns. The Program will be fully invested when there are many Buy signals and will, at times, be fully in cash when the universe of high yield corporate bond mutual funds are showing Sell signals.

† The primary benchmark for the Ocean Park High Yield Corporate Bond Program is the ICE Bank of America Merrill Lynch U.S. High Yield Master II Index, which tracks the performance of U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market. The secondary benchmark is the Bloomberg Barclays U.S. Aggregate Bond Index, which is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated fixed-rate taxable bond market. Investors cannot directly invest in an index and unmanaged index returns do not reflect any fees, expenses or sales charges.
