INVESTMENT OBJECTIVES

The Ocean Park Diversified Municipal Bond Model seeks to produce satisfying long-term returns while limiting downside risk. Returns are created from interest income as well as increases in bond prices. The interest income from municipal bonds is tax-exempt at the federal level, providing a valuable benefit for clients in relatively high income tax brackets. The Model diversifies a client's account directly and indirectly among a number of municipal bond mutual funds. Trends in the municipal bond market will determine when the Model and its underlying holdings will be either fully invested or in cash. Each holding is monitored daily, and during declines a proprietary stop-loss discipline is executed with the goal of limiting drawdowns.

¹The performance is presented net of the highest FTJ FundChoice asset based fee of 0.45% annually and an assumed advisory fee of 1.00% annually. Combined, these fees amount to 1.45% annually and are deducted on a monthly basis. Because clients will have different fee arrangements and specific investments in the strategy may be made at different times, net performance for any individual client will vary from the net performance stated herein. FTJ FundChoice requires the Ocean Park Diversified Municipal Bond Model to maintain a minimum of 2% of the portfolio's value in cash. Allocations to cash may affect the portfolio's performance.

²The benchmark for the Ocean Park Diversified Municipal Bond Model is the Bloomberg Barclays Municipal Bond Index, which is an unmanaged index that is considered representative of the broad market for investment grade tax-exempt bonds with a maturity of at least one year. One cannot invest directly in an index or category and unmanaged index or category returns do not reflect any fees, expenses, or sales charges.

Performance history prior to April 1, 2019 is:

From 7/1/2014 to 12/31/2015, the source of the performance data shown was from an SMA account invested similarly to the Diversified Municipal Bond Model but managed by an affiliate of Ocean Park. From 1/1/2016 to 2/28/19, the source of the performance data shown is from an SMA marker account invested similarly to the Diversified Municipal Bond Model and managed by Ocean Park. March 2019 performance was generated by the Morningstar Direct model portfolio module and validated by summing the weighted average performance of each holding. Not included in the performance data shown prior to April 1, 2019 are a) 65% allocation to a mutual fund managed by an affiliate of Ocean Park Asset Management, Inc. and b) 10% allocation to the Counterpoint Tactical Municipal Fund, which are unique to the Ocean Park Diversified Municipal Bond Model. After April 1, 2019 performance is that which was achieved in the Ocean Park Diversified Municipal Bond Model available at FTJ FundChoice.

The performance shown herein represents past performance.

The Ocean Park Diversified Municipal Bond Model is allocated up to 65% to a mutual fund managed by an affiliate of Ocean Park Asset Management, Inc. and 10% to the Counterpoint Tactical Municipal Fund.
