INVESTMENT OBJECTIVES & STRATEGY

The Ocean Park Conservative Allocation Strategy has two investment objectives: to provide long-term total return and to limit volatility and downside risk. The Strategy's multi-asset diversification approach employs unusually broad diversification across asset classes, markets, industries and issuers. A passive "buy and hold" strategy is not employed. As part of an integrated risk-management discipline, the Strategy monitors underlying holdings daily and applies a trailing stop discipline to each holding, based on a proprietary approach, to limit the impact of any sustained decline in a given asset class or holding. The overall asset allocation of the Strategy is not fixed. It can and does change significantly over time, re-allocating the portfolio in response to trend changes in the U.S. and global economy and in various investment markets.

Top Ten Holdings and Asset Allocation are subject to change.

† The benchmark for the Ocean Park Conservative Allocation Strategy is the Morningstar Allocation — 15% to 30% Equity Category, which is comprised of portfolios which seek to provide both income and capital appreciation by investing in multiple asset classes, including stocks, bonds, and cash. These portfolios are dominated by domestic holdings and have equity exposures between 15% and 30%. One cannot invest directly in an index or category and unmanaged index or category returns do not reflect any fees, expenses, or sales charges.

† The benchmark for the Ocean Park Conservative Allocation Strategy is the Morningstar Allocation – 15% to 30% Equity Category, which is comprised of portfolios which seek to provide both income and capital appreciation by investing in multiple asset classes, including stocks, bonds and cash. These portfolios are dominated by domestic holdings and have equity exposures between 15% and 30%. One cannot invest directly in an index or category and unmanaged index or category returns do not reflect any fees, expenses, or sales charges.

The “Growth of \$100,000 – Gross of Fees” graph and the “Quarterly Performance – Gross of Fees” chart show the performance which was achieved in the Ocean Park (or an affiliate) Conservative Allocation Program SMA marker accounts managed in the same way as the Ocean Park Conservative Allocation Strategy. US Dollars are the currency used to express performance results.

Since 4/1/2016, the source of the performance data is from a marker SMA account managed in the same way as the Ocean Park Conservative Allocation Strategy by Ocean Park. From 4/1/2013 to 3/31/2016, from a marker SMA account managed by an affiliate in the same way as the Ocean Park Conservative Allocation Strategy. From 1/1/1999 to 3/31/2013, from a marker SMA account managed in the same way as the Ocean Park Conservative Allocation Strategy by Ocean Park. From 1/1/1997 to 12/31/1998, from a marker SMA account managed by an affiliate in the same way as the Ocean Park Conservative Allocation Strategy.

The performance data shown is gross of fees charged for each performance period. The gross performance reflects the reinvestment of dividends but does not include investment advisory fees and other expenses which may occur between each client and their financial advisor and which will reduce returns. Specific investments in the Strategy may be made at different times and into different holdings.

Since 1/1/2008, the SMA marker accounts, which represent the Ocean Park Conservative Allocation Strategy, have been allocated to mutual funds managed by an affiliate of Ocean Park.

The performance data does represent the impact that material economic and market factors had on the investment manager’s decision-making. The performance shown represents past performance. Past performance does not guarantee future results. All investments involve risk, including loss of principal.
